

A Unique Value Proposition

- Agility and pricing of a small firm
- Fortune 100 parent company
- Experience delivering solutions for complex, global enterprises
- Concise, actionable guidance

Our Cloud Execution Framework

- A proven methodology for success in the cloud
- Addresses business and technology considerations
- Develops critical people, process, and technology competencies
- Provides a phased roadmap to achieve your desired future state in the cloud

Cloud Professional Services

Get there Faster, Better, for Less

- **Foundation:** Account structure, landing zones, governance
- **Architecture:** Design to enable migration
- **Cloud Native:** Apps that offer the full benefit of the cloud
- **Large Environment Migrations:** Lift and shift or replatform

Security & Compliance

Secure, Compliant, & Modern

- **Assess, Validate, Support:** Information security programs
- **Compliance Support:** Multi-regulatory requirements
- **HITRUST and Zero Trust:** Model cybersecurity frameworks
- **Tooling:** Select and architect the right tools

Performance Management

Move Faster, Break Less, & Save More

- **Maturity:** Assess and create roadmap to advance maturity
- **Dashboards:** Measure and improve performance
- **Tooling:** Guide, implement and optimize
- **AIOps:** Actionable support for AI to drive performance

Big Data & Machine Learning

Data Available the Moment You Need It

- **Data Lake:** Design, setup, governance, security
- **Ingest:** real-time, near real-time, batch
- **Transform:** Integrate, aggregate, cleanse
- **Efficient Access:** partitioning, analytics, data science
- **Data Warehouse:** Design, management, performance

DevSecOps

Build Better, Secure Software Faster

- **Consulting:** Faster release of higher quality software
- **Security:** Baked into every step of the lifecycle
- **Tooling:** Guide, implement, and optimize
- **Managed Services:** Support ongoing operations

Atlassian Services

Collaboration that Drives Results

- **Migration:** To Atlassian SaaS solutions or the AWS cloud
- **Architecture:** Meet operational, governance, and security needs
- **Configuration Customization:** Fields, workflows, screens, etc.
- **Integration:** New tools into your existing products

Modernize & Transform
In the Cloud
